

SPEDU PRODUCT

CATALOGUE

Find it in the SPEDU Region

INTRODUCTION

Welcome to the SPEDU Region Product Catalogue, a comprehensive showcase of the dynamic and diverse businesses operating within the Special Program for Economic Development (SPEDU) region. This publication is brought to you through the collaborative efforts of SPEDU, Citizen Entrepreneurial Development Agency (CEDA), and the Local Enterprise Authority (LEA), all parastatals under the Ministry of Trade & Entrepreneurship—whose shared mission is to foster economic growth, promote local entrepreneurship, and facilitate investment opportunities across the region.

The SPEDU region, recognized for its rich resources, strategic location, and vibrant entrepreneurial spirit, is home to a wide array of innovative businesses spanning various sectors including Agribusiness, Manufacturing, Tourism and Service, ICT and more. These enterprises are instrumental in driving economic development, creating employment opportunities, and enhancing the livelihoods of local communities.

This catalogue serves as a vital platform to highlight the remarkable products and services offered by enterprises in the SPEDU region. It aims to promote visibility and connect them with potential buyers, both within the government and the private sector. By showcasing the capabilities and offerings of these local businesses, we aspire to foster increased procurement from businesses rooted in the region, thereby encouraging local content and supporting the growth of indigenous enterprises.

We strongly encourage procuring entities, government agencies, and corporate organizations to prioritize purchasing from these local brands. This not only supports local economic development but also, aligns with national policies on promoting procurement and empowering small and medium enterprises (SMEs) as well as the 30% government offtake SPEDU incentive. Your procurement choices can have a profound impact on the economic resilience of the SPEDU region, enabling businesses to expand, innovate, create the much needed jobs, diversify the economy and contribute more significantly to GDP.

As we present this catalogue, we reaffirm our commitment to fostering a conducive environment for business growth and investment in the SPEDU region. We invite you to explore the diverse offerings within this publication and consider these local enterprises as your trusted partners for procurement needs. Together, we can build a thriving, sustainable economy that benefits all stakeholders.

Thank you for your support and commitment to local enterprise development. We look forward to fruitful collaborations and shared successes.

About LEA:

The Local Enterprise Authority (LEA) was established by the Small Business Act, Number 7 of 2004 as a Statutory Authority of the Government of Botswana. LEA is a coordinated and focused one-stop shop Authority that provides development and support services to the local industry needs of SMMEs, encompassing business advisory, on-site coaching and monitoring, training, mentoring, market access facilitation, technology and innovation support. LEA also has the Incubation Programme which is designed to accelerate the successful development of incubated enterprises, through an array of business support services.

- The LEA **Mission** is to promote and facilitate entrepreneurship and SMME development through targeted interventions in pursuit of economic growth and job creation.

The Authority's **Vision** is therefore to be the centre of excellence for the development of entrepreneurship and sustainable SMMEs in Botswana.

MANDATE

The Citizen Entrepreneurial Development Agency (CEDA) mandate is to address the need for coherent and holistic support for the development of small and medium enterprises. CEDA offers funding for the capital expenditure stock or working capital in new and existing business ventures. It also offers training and mentoring for new and seasoned entrepreneurs, and business advisory services to entrepreneurs in various sectors as identified through the needs assessment that is conducted during project monitoring.

MISSION

Fund, Grow and Sustain a thriving SMME Sector in Botswana.

VISION

To Build an Innovative, Competitive & Impactful sector.
